The Carls just appeared. Coming home from work at three a.m., twenty-three-year-old April May stumbles across a giant sculpture. Delighted by its appearance and craftsmanship--like a ten-foot-tall Transformer wearing a suit of samurai armor--April and her friend Andy make a video with it, which Andy uploads to YouTube. The next day April wakes up to a viral video and a new life. News quickly spreads that there are Carls in dozens of cities around the world--everywhere from Beijing to Buenos Aires--and April, as their first

documentarian, finds herself at the center of an intense international media spotlight. Now April has to deal with the pressure on her relationships, her identity, and her safety that this new position brings, all while being on the front lines of the quest to find out not just what the Carls are, but what they want from us. Compulsively entertaining and powerfully relevant, *An Absolutely Remarkable Thing* grapples with big themes, including how the social internet is changing fame, rhetoric, and radicalization; how our culture deals with fear and uncertainty; and how vilification and adoration spring from the same dehumanization that follows a life in the public eye"--

And so the murder of the esteemed Reverend Bell became the most mysterious and unforgettable crime Ford County had ever known.

In an act of betrayal that makes all the others pale in comparison, I've learned that this world is an illusion and that my Phoebe still lives. Now I will have to travel into the very pits of Hades to try and save her, even as everyone around me attempts to steal what little soul I have left. There's only one person at my back and I'm not sure I can trust her either, for she was born of an enemy race. Yet sometimes the road to redemption is one that singes us to our very core. And if I fail to find the answers I need to save Phoebe, more than just my wife will die.

**F KING King, Stephen. Elevation / Scribner, 2018**

"Set in the fictional town of Castle Rock, Maine, the latest from legendary master storyteller Stephen King, a riveting, extraordinarily eerie, and moving story about a man whose mysterious affliction brings a small town together--a timely, upbeat tale about finding common ground despite deep-rooted differences. Although Scott Carey doesn't look any different, he's been steadily losing weight. There are a couple of other odd things, too. He weighs the same in his clothes and out of them, no matter how heavy they are. Scott doesn't want to be poked and prodded. He mostly just wants someone else to know, and he trusts Doctor Bob Ellis. In the small town of Castle Rock, the setting of many of King's most iconic stories, Scott is engaged in

a low grade--but escalating--battle with the lesbians next door whose dog regularly drops his business on Scott's lawn. One of the women is friendly; the other, cold as ice. Both are trying to launch a new restaurant, but the people of Castle Rock want no part of a gay married couple, and the place is in trouble. When Scott finally understands the prejudices they face--including his own--he tries to help. Unlikely alliances, the annual foot race, and the mystery of Scott's affliction bring out the best in people who have indulged the worst in themselves and others. From Stephen King, our "most precious renewable resource, like Shakespeare in the malleability of his work" (The Guardian), *Elevation* is an antidote to our divisive culture, as gloriously joyful (with a twinge of deep sadness) as "It's a Wonderful Life."--

**F KINGSOLVER** Kingsolver, Barbara. *Unsheltered: a novel* / Harper, an imprint of HarperCollinsPublishers, 2018

"How could two hardworking people do everything right in life, a woman asks, and end up destitute? Willa Knox and her husband followed all the rules as responsible parents and professionals, and have nothing to show for it but debts and an inherited brick house that is falling apart. The magazine where Willa worked has folded; the college where her husband had tenure has closed. Their dubious shelter is also the only option for a disabled father-in-law and an exasperating, free-spirited daughter. When the family's one success story, an Ivy-educated son, is uprooted by tragedy, he seems likely to join them, with dark complications of his own. In another time, a troubled husband and public servant asks, How can a man tell the truth, and be reviled for it? A science teacher with a passion for honest investigation, Thatcher Greenwood, finds himself under siege: his employer forbids him to speak of the exciting work just published by Charles Darwin. His young bride and social-climbing mother-in-law bristle at the risk of scandal, and dismiss his worries that their elegant house is unsound. In a village ostensibly founded as a benevolent Utopia, Thatcher wants only to honor his duties, but his friendships with a woman scientist and a renegade newspaper editor threaten to draw him into a vendetta with the town's powerful men. *Unsheltered* is the compulsively readable story of two families, in two centuries, who live at the corner of Sixth and Plum in Vineland, New Jersey, navigating what seems to be the end of the world as they know it. With history as their tantalizing canvas, these characters paint a startlingly relevant portrait of life in precarious times when the foundations of the past have failed to prepare us for the future.--"

So in late 1969, when handsome Chase Andrews is found dead, the locals immediately suspect Kya Clark. But Kya is not what they say. Abandoned at age ten, she has survived on her own in the marsh that she calls home. A born naturalist with just one day of school, she takes life lessons from the land, learning from the false signals of fireflies the real way of this world. But while she could have lived in solitude forever, the time comes when she yearns to be touched and loved. Drawn to two young men from town, who are each intrigued by her wild beauty, Kya opens herself to a new and startling world--until the unthinkable happens. But the scourge of the dangerous Lolth's ambitions remain, and demons have been foisted on the unwitting of the surface. The resulting chaos and war will prove to be the greatest challenge for all three"--

The Frighteners is a bizarrely compelling, laugh-out-loud exploration of society's fascination with the dark, spooky, and downright repellent, written by a man who went from horror-obsessed church hater to a God-fearing Christian, who then reconciled his love of the macabre with his new faith. Laws takes us on a worldwide adventure to shine a light on the dark corners of our own minds. He meets the people who collect serial killers' hair, spends a night in a haunted hotel, and has dinner with a woman who keeps her own coffin in her living room, ready for the big day. He's chased by zombies through an underground nuclear bunker, hunts a supposed real-life werewolf through the city streets, and meets self-proclaimed vampires who drink actual blood. From the corpse-packed crypts of Rome to the spooky streets of a Transylvanian night, he asks why he, and millions of other people, are drawn to ponder monsters, ghosts, death, and gore. And, in a world that worships rationality and points an accusing finger at violent video games and gruesome films, can a love of morbid culture actually give both adults and children safe ways to confront our mortality? Might it even have power to re-enchant our jaded world? Grab your crucifixes, pack the silver bullets, and join the Sinister Minister on this celebratory romp through our morbid curiosities.

### **155.28 EMR Emre, Merve. *The personality brokers: the strange history of Myers-Briggs and the birth of personality testing* / Doubleday, a division of Penguin Random House LLC, 2018**

"The Myers-Briggs Type Indicator is the most popular personality test in the world. It has been harnessed by Fortune 100 companies, universities, hospitals, churches, and the military. Its language--of extraversion vs. introversion, thinking vs. feeling--has inspired online dating platforms and Buzzfeed quizzes alike. And yet despite the test's widespread adoption, experts in the field of psychometric testing, a \$500 million industry, struggle to account for its success--no less to validate its results. How did the Myers-Briggs test insinuate itself into our jobs, our relationships, our Internet, our lives? First conceived in the 1920s by the mother-daughter team of Katherine Briggs and Isabel Briggs Myers, a pair of aspiring novelists and devoted homemakers, the Myers-Briggs was designed to bring the gospel of Carl Jung to the masses. But it would take on a life of its own, reaching from the smoke-filled boardrooms of mid-century New York to Berkeley, California, where it was honed against some of the twentieth century's greatest creative minds. It would travel across the world to London, Zurich, Cape Town, Melbourne, and Tokyo; to elementary schools, nunneries, wellness retreats, and the closed-door corporate training sessions of today. Drawing from original reporting and never-before-published documents, this book examines nothing less than the definition of the self--our attempts to grasp, categorize, and quantify our personalities. Surprising and absorbing, the book, like the test at its heart, considers the timeless question: What makes you you"--

Lehmiller, one of the country's leading experts on human sexuality and author of the popular blog Sex and Psychology, has made it his career's ambition to answer these questions. He recently concluded the largest and most comprehensive scientific survey of Americans' sexual fantasies ever undertaken, a monumental two-year study involving more than 4,000 Americans from all walks of life, answering questions of unusual scope. Based on this study, Tell Me What You Want offers an unprecedented look into our fantasy worlds and what

they reveal about us. It helps readers to better understand their own sexual desires and how to attain them within their relationships, but also to appreciate why the desires of their partners may be so incredibly different. If we only better understood the incredible diversity of human sexual desire and why this diversity exists in the first place, we would experience less distress, anxiety, and shame about our own sexual fantasies and better understand why our partners often have sexual proclivities that are so different from our own. Ultimately, this book will help readers to enhance their sex lives and to maintain more satisfying relationships and marriages in the future by breaking down barriers to discussing sexual fantasies and allowing them to become a part of readers' sexual realities"—

From a woman who has been there and back, the first inside look at the devastating effects evangelical Christianity's purity culture has had on a generation of young women--in a potent combination of journalism, cultural commentary, and memoir. In the 1990s, a "purity industry" emerged out of the white evangelical Christian culture. Purity rings, purity pledges, and purity balls came with a dangerous message: girls are potential sexual "stumbling blocks" for boys and men, and any expression of a girl's sexuality could reflect the corruption of her character. This message traumatized many girls--resulting in anxiety, fear, and experiences that mimicked the symptoms of Post-Traumatic Stress Disorder--and trapped them in a cycle of shame.

**294.3 WAR Warner, Brad. Don't be a jerk and other practical advice from Dogen, Japan's greatest Zen master: a radical but reverent paraphrasing of Dogen's Treasury of the true dharma eye / New World Library, 2016**

"The Shobogenzo (The Treasury of the True Dharma Eye) is a revered eight-hundred-year-old Zen Buddhism classic written by the Japanese monk Eihei Dogen. Despite the timeless wisdom of his teachings, many consider the book difficult to understand and daunting to read. In Don't Be a Jerk, Zen priest and bestselling author Brad Warner, through accessible paraphrasing and incisive commentary, applies Dogen's teachings to modern times. While entertaining and sometimes irreverent, Warner is also an astute scholar who sees in Dogen very modern psychological concepts, as well as insights on such topics as feminism and reincarnation. Warner even shows that Dogen offered a "Middle Way" in the currently raging debate between science and religion. For curious readers worried that Dogen's teachings are too philosophically opaque, Don't Be a Jerk is hilarious, understandable, and wise." --Amazon

As it prods readers to question everything, Hardcore Zen is both an approach and a departure, leaving behind the soft and lyrical for the gritty and stark perspective of a new generation.

**302.5 APP Appiah, Anthony. The lies that bind: rethinking identity, creed, country, color, class, culture / Liveright Publishing Corporation, a division of W.W. Norton & Company, 2018**

Who do you think you are? That's a question bound up in another: What do you think you are? Gender. Religion. Race. Nationality. Class. Culture. Such affiliations give contours to our sense

of self, and shape our polarized world. Yet the collective identities they spawn are riddled with contradictions and cratered with falsehoods. Kwame Anthony Appiah's *The Lies That Bind* is an incandescent exploration of the nature and history of the identities that define us. It challenges our assumptions about how identities work. We all know there are conflicts between identities, but Appiah shows how identities are created by conflict. Religion, he demonstrates, gains power because it isn't primarily about belief. Our everyday notions of race are the detritus of discarded nineteenth-century science. Our cherished concept of the sovereign nation--of self-rule--is incoherent and unstable. Class systems can become entrenched by efforts to reform them. Even the very idea of Western culture is a shimmering mirage. From Anton Wilhelm Amo, the eighteenth-century African child who miraculously became an eminent European philosopher before retiring back to Africa, to Italo Svevo, the literary marvel who changed citizenship without leaving home, to Appiah's own father, Joseph, an anticolonial firebrand who was ready to give his life for a nation that did not yet exist, Appiah interweaves keen-edged argument with vibrant narratives to expose the myths behind our collective identities. These "mistaken identities," Appiah explains, can fuel some of our worst atrocities--from chattel slavery to genocide. And yet, he argues that social identities aren't something we can simply do away with. They can usher in moral progress and bring significance to our lives by connecting the small scale of our daily existence with larger movements, causes, and concerns. Elaborating a bold and clarifying new theory of identity, *The Lies That Bind* is a ringing philosophical statement for the anxious, conflict-ridden twenty-first century. This book will transform the way we think about who--and what--"we" are.

**302.54 STO Storm, Cristien. Empowered boundaries: speaking truth, setting boundaries, and inspiring social change / North Atlantic Books, 2018**

"An invaluable resource on boundary-setting practices for anyone looking to challenge our default social conditioning and create empowered relationships and communities. As there have been increases in violence against women, people of color, immigrants, and LGBTQI-identified people, there has been a corresponding demand for individual and community self-defense, boundary setting, and bystander trainings that are grounded in an understanding of the complexities and intersections of power and privilege. Survivors of domestic violence and sexual assault are reporting that the current political moment is bringing up past trauma as well as emboldening attitudes of toxic masculinity and hetero-patriarchy, alongside an increase in incidents of violence and abuse. Boundary setting that is grounded in an understanding of gender-based oppression, violence, and liberation is necessary. Explaining power and privilege and the links between individual safety and community safety, Cristien Storm shows how to set emotional boundaries that build a better world. Storm has developed boundary setting curricula grounded in resiliency and trauma-informed theories, and the book provides skills and exercises, such as Naming the Behavior, the Broken Record, Freeze Framing, the Reflective Loop, and Trusting Intuition, as well as examples from workshop participants."--Provided by publisher"--

**304.873 VAR Vargas, Jose Antonio. Dear America: notes of an undocumented citizen / Dey St., 2018**

"The movement of people--what Americans call 'immigration' and the rest of the world calls 'migration'--is among the defining issues of our time. Technology and information crosses countries and continents at blistering speed. Corporations thrive on being multinational and polyglot. Yet the world's estimated 244 million total migrant population, particularly those deemed 'illegal' by countries and societies, are locked in a chaotic and circular debate about borders and documents, assimilation and identity. An issue about movement seems immovable: politically, culturally and personally. Dear America: Notes Of An Undocumented Citizen is an urgent, provocative and deeply personal account from Jose Antonio Vargas, a Pulitzer Prize-winning journalist who happens to be the most well-known undocumented immigrant in the United States. Born in the Philippines and brought to the U.S. illegally as a 12-year-old, Vargas hid in plain-sight for years, writing for some of the most prestigious news organizations in the country (The Washington Post, The New Yorker) while lying about where he came from and how he got here. After publicly admitting his undocumented status--risking his career and personal safety--Vargas has challenged the definition of what it means to be an American, and has advocated for the human rights of immigrants and migrants during the largest global movement of people in modern history. Both a letter to America and a window into Vargas's America, this book is a transformative argument about migration and citizenship, and an intimate, searing exploration on what it means to be home when the country you call your home doesn't consider you one of its own"-- Provided by publisher.

**305.2308 SIM Simmons, Rachel. Enough as she is: how to help girls move beyond impossible standards of success to live healthy, happy, and fulfilling lives / Harper, an imprint of HarperCollinsPublishers, 2018**

Offers advice to help parents guide teenage girls to recognize and reject perfectionist messages that lead to self-doubt, unfulfilling relationships, and fears of failure, and teach them self-compassion, how to take healthy risks, and the importance of finding support. | "For many girls today, the drive to achieve is fueled by brutal self-criticism and an acute fear of failure. Though young women have never been more 'successful'--outpacing boys in GPAs and college enrollment--they have also never struggled more. On the surface, girls may seem exceptional, but internally they are anxious and overwhelmed, feeling that, no matter how hard they try, they will never be smart enough, successful enough, pretty enough, thin enough, popular enough, or sexy enough. Rachel Simmons has been studying young women for two decades, and her research plainly shows that girl competence does not equal girl confidence--nor does it equal happiness, resilience, or self-worth. Backed by vivid case studies, Simmons warns that we have raised a generation of young women so focused on achieving that they avoid healthy risks, overthink setbacks, and suffer from imposter syndrome--believing they are frauds. As they spend more time projecting an image of effortless perfection on social media, these girls are prone to withdraw from the essential relationships that offer solace and support and bolster self-esteem. Deeply empathetic and meticulously researched, this book offers a clear understanding of this devastating problem and provides practical parenting advice--including teaching girls self-compassion as an alternative to self-criticism, and instructing how to manage overthinking, resist the constant urge to compare themselves to peers, take healthy risks, navigate toxic elements of social media, prioritize self-care, and seek support when they need it. Rachel Simmons sounds an alarm to parents and educators, arguing that young women can do more than survive adolescence. They can thrive. This book shows us how"--Jacket.

**306.2097 KAK Kakutani, Michiko. *The death of truth: notes on falsehood in the age of Trump* / Tim Duggan Books, 2018**

"We live in a time when the very idea of objective truth is mocked and discounted by the occupants of the White House. Discredited conspiracy theories and ideologies have resurfaced, proven science is once more up for debate, and Russian propaganda floods our screens. The wisdom of the crowd has usurped research and expertise, and we are each left clinging to the beliefs that best confirm our biases. How did truth become an endangered species in contemporary America? This decline began decades ago, and in *The Death of Truth*, former New York Times critic Michiko Kakutani takes a penetrating look at the cultural forces that contributed to this gathering storm. In social media and literature, television, academia, and politics, Kakutani identifies the trends, originating on both the right and the left, that have combined to elevate subjectivity over factuality, science, and common values. And she returns us to the words of the great critics of authoritarianism, writers like George Orwell and Hannah Arendt, whose work is newly and eerily relevant. With remarkable erudition and insight, Kakutani offers a provocative diagnosis of our current condition and points toward a new path for our truth-challenged times."

**306.2097 LUK Lukianoff, Greg. *The coddling of the American mind: how good intentions and bad ideas are setting up a generation for failure* / Penguin Press, 2018**

"Something has been going wrong on many college campuses in the last few years. Speakers are shouted down. Students and professors say they are walking on eggshells and are afraid to speak honestly. Rates of anxiety, depression, and suicide are rising--on campus as well as nationally. How did this happen? First Amendment expert Greg Lukianoff and social psychologist Jonathan Haidt show how the new problems on campus have their origins in three terrible ideas that have become increasingly woven into American childhood and education: What doesn't kill you makes you weaker; always trust your feelings; and life is a battle between good people and evil people. These three Great Untruths contradict basic psychological principles about well-being and ancient wisdom from many cultures. Embracing these untruths--and the resulting culture of safetyism--interferes with young people's social, emotional, and intellectual development. It makes it harder for them to become autonomous adults who are able to navigate the bumpy road of life."--

**307.7609 KLI Klinenberg, Eric. Palaces for the people: how social infrastructure can help fight inequality, polarization, and the decline of civic life / Crown, 2018**

"An eminent sociologist--and coauthor, with Aziz Ansari, of the #1 New York Times bestseller Modern Romance--makes the provocative case that the future of democratic societies rests not only on shared values but also on shared "social infrastructure": the libraries, childcare centers, bookstores, coffee shops, pools, and parks that promote crucial, sometimes life-saving connections between people who might otherwise fail to find common cause"--

**320.51 COU Coulter, Ann H. Resistance is futile!: how the Trump-hating left lost its collective mind / Sentinel, 2018**

"Since the day Donald Trump announced his presidential campaign, the left has waged a demented war against him. Liberals used to pride themselves on their ultra-hipness, but Trump has turned them into weeping little girls in pink party dresses. The very people who once mocked right-wingers for (allegedly) overreacting to every little thing are now the ones hyperventilating and hatching insane conspiracy theories. During the campaign, and even more so after his victory, the left went nuts, becoming the very embodiment of their own caricature of conservatives. Everything Trump does sends them into a moral panic. Everything is a constitutional crisis. Members of the self-proclaimed "Resistance"--journalists, politicians, professors, judges, comedians, movie stars, Twitter pundits, even Oprah and Lindsey Vonn!--are literally shaking because Trump is literally Hitler. Meanwhile, Trump governs mostly as a middle-of-the-road Republican, sometimes betraying his base and allowing unprecedented restrictions on his authority. He has submitted, however irritably, to a hyper-politicized special counsel. He obeys even unconstitutional orders from district court judges who want to roll back his presidential powers. He acquiesces to nearly every demand of his archrival, Senator Chuck Schumer. IT'S RIGHT OUT OF THE MEIN KAMPF PLAYBOOK! Now Ann Coulter skewers the various elements of "The Resistance"--the pussy-hat brigade, the Russian-collusion witch hunters, the media alarmists, the campus hysterics, and more. They talk about Russia? They're the ones meddling with our democracy by trying to overturn the results of the election with their relentless attacks. The only permanent result of the Trump era may be our cultural institutions' total loss of credibility."--Dust jacket.

**320.5409 SAS Saslow, Eli. Rising out of hatred: the awakening of a former white nationalist / Doubleday, 2018**

"From a Pulitzer Prize-winning reporter, the powerful story of how a prominent white supremacist changed his heart and mind. Derek Black grew up at the epicenter of white nationalism. His father founded Stormfront, the largest racist community on the Internet. His godfather, David Duke, was a KKK Grand Wizard. By the time Derek turned nineteen, he had become an elected politician with his own daily radio show - already regarded as the "the leading light" of the burgeoning white nationalist movement. "We can infiltrate," Derek once told a crowd of white nationalists. "We can take the country back." Then he went to college. Derek had been home-schooled by his parents, steeped in the culture of white supremacy, and he had rarely encountered diverse perspectives or direct outrage against his beliefs. At New College of Florida, he continued to broadcast his radio show in secret each morning, living a double life until a classmate uncovered his identity and sent an email to the entire school. "Derek Black...white supremacist, radio host...New College student???" The ensuing uproar overtook one of the most liberal colleges in the country. Some students protested Derek's presence on campus, forcing him to reconcile for the first time with the ugliness his beliefs. Other students found the courage to reach out to him, including an Orthodox Jew who invited Derek to attend weekly Shabbat dinners. It was because of those dinners--and the wide-ranging

relationships formed at that table--that Derek started to question the science, history and prejudices behind his worldview. As white nationalism infiltrated the political mainstream, Derek decided to confront the damage he had done. *Rising Out of Hatred* tells the story of how white-supremacist ideas migrated from the far-right fringe to the White House through the intensely personal saga of one man who eventually disavowed everything he was taught to believe, at tremendous personal cost. With great empathy and narrative verve, Eli Saslow asks what Derek's story can tell us about America's increasingly divided nature. This is a book to help us understand the American moment and to help us better understand one another"--

**324.2736 D'S D'Souza, Dinesh. Death of a nation: plantation politics and the making of the Democratic Party / All Points Books, 2018**

Who is killing America? Is it really Donald Trump and a GOP filled with white supremacists? In a major new work of historical revisionism, Dinesh D'Souza makes the provocative case that Democrats are the ones killing America by turning it into a massive nanny state modeled on the Southern plantation system. This sweeping alternative history of the Democratic Party goes back to its foundations in the antebellum South. The slaveholding elite devised the plantation as a means of organizing labor and political support. It was a mini welfare state, a cradle to grave system that bred dependency and punished any urge to independence. This model impressed northern Democrats, inspiring the political machines that traded government handouts for votes from ethnic immigrant blocs. Today's Democrats have expanded to a multiracial plantation of ghettos for blacks, barrios for Latinos, and reservations for Native Americans. Whites are the only holdouts resisting full dependency, and so they are blamed for the bigotry and racial exploitation that is actually perpetrated by the left. *Death of a nation's* bracing alternative vision of American history explains the Democratic Party's dark past, reinterprets the roles of figures like Van Buren, FDR and LBJ, and exposes the hidden truth that racism comes not from Trump or the conservative right but rather from Democrats and progressives on the left.

**324.973 UNG Unger, Craig. House of Trump, house of Putin: the untold story of Donald Trump and the Russian mafia / Dutton, an imprint of Penguin Random House, 2018**

The Cold War did not end in 1991, it merely evolved, with Putin and his hand-selected group of oligarchs and Mafia kingpins ensnaring Trump more than twenty years ago with the massive bailout of a string of sensational Trump hotel and casino failures in Atlantic City. Unger methodically traces the deep-rooted alliance between the highest echelons of American political operatives and the biggest players in the frightening underworld of the Russian Mafia. Without Russia, Trump would not be president. -- adapted from jacket

**346.730 LES Lessig, Lawrence. Remix: making art and commerce thrive in the hybrid economy / Penguin Books, 2009**

From the Publisher: The author of Free Culture shows how we harm our children-and almost anyone who creates, enjoys, or sells any art form-with a restrictive copyright system driven by corporate interests. Lessig reveals the solutions to this impasse offered by a collaborative yet profitable "hybrid economy". Lawrence Lessig, the reigning authority on intellectual property in the Internet age, spotlights the newest and possibly the most harmful culture war--a war waged against our kids and others who create and consume art. America's copyright laws have ceased to perform their original, beneficial role: protecting artists' creations while allowing them to build on previous creative works. In fact, our system now criminalizes those very actions. For many, new technologies have made it irresistible to flout these unreasonable and ultimately untenable laws. Some of today's most talented artists are felons, and so are our kids, who see no reason why they shouldn't do what their computers and the Web let them do, from burning a copyrighted CD for a friend to "biting" riffs from films, videos, songs, etc and making new art from them. Criminalizing our children and others is exactly what our society should not do, and Lessig shows how we can and must end this conflict--a war as ill conceived and unwinnable as the war on drugs. By embracing "read-write culture," which allows its users to create art as readily as they consume it, we can ensure that creators get the support--artistic, commercial, and ethical--that they deserve and need.

**363.3492 AND Andrés, José. We fed an island: the true story of rebuilding Puerto Rico, one meal at a time / Ecco, an Imprint of HarperCollins Publishers, 2018**

Chef José Andrés arrived in Puerto Rico four days after Hurricane Maria ripped through the island. The economy was destroyed and for most people there was no clean water, no food, no power, no gas, and no way to communicate with the outside world. Andrés addressed the humanitarian crisis the only way he knew how: by feeding people, one hot meal at a time. From serving sancocho with his friend José Enrique at Enrique's ravaged restaurant in San Juan to eventually cooking 100,000 meals a day at more than a dozen kitchens across the island, Andrés and his team fed hundreds of thousands of people, including with massive paellas made to serve thousands of people alone.. At the same time, they also confronted a crisis with deep roots, as well as the broken and wasteful system that helps keep some of the biggest charities and NGOs in business. Based on Andrés's insider's take as well as on meetings, messages, and conversations he had while in Puerto Rico, this book movingly describes how a network of community kitchens activated real change and tells an extraordinary story of hope in the face of disasters both natural and man-made, offering suggestions for how to address a crisis like this in the future.

**364.1532 MIL Miller, T. Christian. A false report: a true story of rape in America / Crown Publishers, 2018**

"On August 11, 2008, eighteen-year-old Marie reported that a masked man broke into her apartment near Seattle, Washington, and raped her. Within days police and even those closest to Marie became suspicious of her story. The police swiftly pivoted and began investigating Marie. Confronted with inconsistencies in her story and the doubts of others, Marie broke down and said her story was a lie, a bid for attention. Police charged Marie with false reporting, and she was branded a liar. More than two years later, Colorado detective Stacy Galbraith was assigned to investigate a case of sexual assault. Describing the crime to her husband that night, Galbraith learned that the case bore an eerie resemblance to a rape that had taken place months earlier in a nearby town. She joined forces with the detective on that case, Edna Hendershot, and the two soon discovered they were dealing with a serial rapist: a man who photographed his victims, threatening to release the images online, and whose calculated steps

to erase all physical evidence suggested he might be a soldier or a cop. Through meticulous police work the detectives would eventually connect the rapist to other attacks in Colorado and beyond. Based on investigative files and extensive interviews with the principals, *A False Report* is a serpentine tale of doubt, lies, and a hunt for justice, unveiling the disturbing truth of how sexual assault is investigated today, and the long history of skepticism toward rape victims.

**623 TYS Tyson, Neil deGrasse. Accessory to war: the unspoken alliance between astrophysics and the military / W.W. Norton & Company, 2018**

"In this fascinating foray into the centuries-old relationship between science and military power, acclaimed astrophysicist Neil deGrasse Tyson and writer-researcher Avis Lang examine how the methods and tools of astrophysics have been enlisted in the service of war. "The overlap is strong, and the knowledge flows in both directions," say the authors, because astrophysicists and military planners care about many of the same things: multi-spectral detection, ranging, tracking, imaging, high ground, nuclear fusion, and access to space. Tyson and Lang call it a "curiously complicit" alliance. "The universe is both the ultimate frontier and the highest of high grounds," they write. "Shared by both space scientists and space warriors, it's a laboratory for one and a battlefield for the other. The explorer wants to understand it; the soldier wants to dominate it. But without the right technology--which is more or less the same technology for both parties--nobody can get to it, operate in it, scrutinize it, dominate it, or use it to their advantage and someone else's disadvantage."--Dust jacket.

**633.8 WAL Walton, Stuart. The devil's dinner: a gastronomic and cultural history of chili peppers / St. Martin's Press, 2018**

"The Devil's Dinner is the first authoritative history of chili peppers. There are countless books on cooking with chilies, but no book goes into depth about the biological, gastronomical, and cultural impact this forbidden fruit has had upon people all over the world. The story has been too hot to handle. A billion dollar industry, hot peppers are especially popular in the United States, where a superhot movement is on the rise. Hot peppers started out in Mexico and South America, came to Europe with returning Spanish travelers, lit up Iberian cuisine with piri-piri and pimientos, continued along eastern trade routes, boosted mustard and pepper in cuisines of the Indian subcontinent, then took overland routes to central Europe in the paprika of Hungarian and Austrian dumplings, devilled this and devilled that--they've been everywhere! The Devil's Dinner tells the history of hot peppers and captures the rise of the super hot movement."

"You only think you know this story. In 1991, Jeffrey Dahmer, the most notorious serial killer since Jack the Ripper, seared himself into the American consciousness. To the public, Dahmer was a monster who committed unthinkable atrocities. To Derf Backderf, 'Jeff' was a much more complex figure: a high school friend with whom he had shared classrooms, hallways, and car rides. In this story, a haunting and original graphic novel, writer-artist Backderf creates a surprisingly sympathetic portrait of a disturbed young man struggling against the morbid urges emanating from the deep recesses of his psyche--a shy kid, a teenage alcoholic, and a goofball who never quite fit in with his classmates. With profound insight, what emerges is a Jeffrey Dahmer that few ever really knew, and one readers will never forget."--Amazon.com.

**796.332 LEI Leibovich, Mark. Big game: the NFL in dangerous times / Penguin Press, 2018**

"Like millions of Americans, Mark Leibovich has spent more of his life tuned into pro football than he'd care to admit. A lifelong fan of the New England Patriots, he kept his obsession quiet, making a nice career for himself covering that other playground for rich and overgrown children, American politics. Still, every now and then Leibovich would reach out to Tom Brady to gauge his willingness to subject himself to a profile. He figured that the chances of Brady agreeing were a Hail Mary at best, but Brady returned Leibovich's call in the summer of 2014, kicking off, if not a bromance, at least a journalistic courtship that extended through epic Patriots Super Bowl victory and defeat, and to a scandal involving Brady--Deflategate--whose grip on the sports media was as profound as its true significance was ridiculous. So began a four-year odyssey that brought Mark Leibovich deeper inside the NFL than he, and certainly his subjects, ever bargained for."--Dust jacket.

**814.6 CRO Crosley, Sloane. Look alive out there: essays / MCD/Farrar, Straus and Giroux, 2018**

The characteristic heart and punch-packing observations are back, but with a newfound coat of maturity. A thin coat. More of a blazer, really. Fans of I Was Told There'd Be Cake and How Did You Get This Number know Sloane Crosley's life as a series of relatable but madcap misadventures. In Look Alive Out There, whether it's scaling active volcanoes, crashing shivas, playing herself on Gossip Girl, befriending swingers, or squinting down the barrel of the fertility gun, Crosley continues to rise to the occasion with unmatchable nerve and electric one-liners. And as her subjects become more serious, her essays deliver not just laughs but lasting emotional heft and insight. Crosley has taken up the gauntlets thrown by her predecessors--Dorothy Parker, Nora Ephron, David Sedaris--and crafted something rare, affecting, and true. Look Alive Out There arrives on the tenth anniversary of I Was Told There'd be Cake, and Crosley's essays have managed to grow simultaneously more sophisticated and

even funnier. And yet she's still very much herself, and it's great to have her back--and not a moment too soon (or late, for that matter).

**814.6 GIR Giraldi, William. American audacity: in defense of literary daring / Liveright Publishing Corporation, 2018**

"Over the last decade William Giraldi has established himself as a charismatic and uncompromising literary essayist. American Audacity gathers Giraldi's fierce and witty considerations of American writers and themes, including a never-before-published appreciation of James Baldwin and an introductory call to arms for twenty-first-century American literature. With deep seeing and enormous learning, Giraldi considers giants from the past (Herman Melville, Edgar Allan Poe, Harper Lee), some of our great living critics and novelists (Harold Bloom, Cynthia Ozick, Allan Gurganus, Elizabeth Spencer), and those cultural-literary themes that have concerned him as a novelist (best-selling books, the problem of Catholic fiction, and his viral essay on bibliophilia). Demanding that literature be urgent and audacious, this book is itself an act of intellectual and stylistic daring. At a time when literature is threatened by ceaseless electronic distraction, Giraldi reaffirms the pleasure and wisdom of literary values" --

**818.602 CHA Biederman, Felix. The Chapo guide to revolution: a manifesto against logic, facts, and reason / Touchstone, 2018**

"In a manifesto that renders all previous attempts at political satire obsolete, The Chapo Guide to Revolution shows you that you don't have to side with either the pear-shaped vampires of the right or the craven, lanyard-wearing wonks of contemporary liberalism. These self-described "assholes from the internet" offer a fully ironic ideology for all who feel politically hopeless and prefer broadsides and tirades to reasoned debate. Learn the "secret" history of the world, politics, media, and everything in-between that THEY don't want you to know and chart a course from our wretched present to a utopian future where one can post in the morning, game in the afternoon, and podcast after dinner without ever becoming a poster, gamer, or podcaster. The Chapo Guide to Revolution features illustrated taxonomies of contemporary liberal and conservative characters, biographies of important thought leaders, "never before seen" drafts of Aaron Sorkin's Newsroom manga, and the ten new laws that govern Chapo Year Zero (everyone gets a dog, billionaires are turned into Soylent, and logic is outlawed). If you're a fan of sacred cows, prisoners being taken, and holds being barred, then this book is NOT for you. However, if you feel disenfranchised from the political and cultural nightmare we're in, then Chapo, let's go..."

**920 KAS Kashner, Sam. The fabulous Bouvier sisters: the tragic and glamorous lives of Jackie and Lee / Harper, an imprint of HarperCollinsPublishers, 2018**

"A poignant, evocative, and wonderfully gossipy account of the two sisters who represented style and class above all else, Jackie Kennedy Onassis and Lee Radziwill, from the authors of Furious Love. When sixty-four-year-old Jackie Kennedy Onassis died in her Fifth Avenue apartment, her younger sister Lee wept inconsolably. Then Jackie's thirty-eight-page will was

read. Lee discovered that substantial cash bequests were left to family members, friends, and employees, but nothing to her. "I have made no provision in this my Will for my sister, Lee B. Radziwill, for whom I have great affection, because I have already done so during my lifetime," read Jackie's final testament. Drawing on the authors' candid interviews with Lee Radziwill, *The Fabulous Bouvier Sisters* explores their complicated relationship, placing them at the center of twentieth-century fashion, design, and style."

**921 BRENNAN-JOBS** *Brennan-Jobs, Lisa. Small fry: a memoir / Grove Press, 2018*

"A frank, smart and captivating memoir by the daughter of Apple founder Steve Jobs. Born on a farm and named in a field by her parents--artist Chrisann Brennan and Steve Jobs--Lisa Brennan-Jobs's childhood unfolded in a rapidly changing Silicon Valley. When she was young, Lisa's father was a mythical figure who was rarely present in her life. As she grew older, her father took an interest in her, ushering her into a new world of mansions, vacations, and private schools. His attention was thrilling, but he could also be cold, critical and unpredictable. When her relationship with her mother grew strained in high school, Lisa decided to move in with her father, hoping he'd become the parent she'd always wanted him to be. *Small Fry* is Lisa Brennan-Jobs's poignant story of a childhood spent between two imperfect but extraordinary homes. Scrappy, wise, and funny, young Lisa is an unforgettable guide through her parents' fascinating and disparate worlds. Part portrait of a complex family, part love letter to California in the seventies and eighties, *Small Fry* is an enthralling book by an insightful new literary voice."--Provided by publisher.

**921 CASH** *Cash, Rosanne. Composed: a memoir / Viking, 2010*

A memoir from the critically acclaimed singer and songwriter. For thirty years as a musician, Rosanne Cash has enjoyed both critical and commercial success, releasing a series of albums that are as notable for their lyrical intelligence as for their musical excellence. Now, in her memoir, Cash writes compellingly about her upbringing in Southern California as the child of country legend Johnny Cash, and of her relationships with her mother and her famous stepmother, June Carter Cash. In her account of her development as an artist she shares memories of a hilarious stint as a twenty-year-old working for Columbia Records in London; recording her own first album on a German label; working her way to success; her marriage to Rodney Crowell, a union that made them Nashville's premier couple; her relationship with the country music establishment; taking a new direction in her music and leaving Nashville to move to New York; motherhood; dealing with the deaths of her parents, in part through music; the process of songwriting; and the fulfillment she has found with her current husband and musical collaborator, John Leventhal.

**921 CAYTON-HOLLAND** *Cayton-Holland, Adam. Tragedy plus time: a tragi-comic memoir / Touchstone, 2018*

"Meet the Magnificent Cayton-Hollands, a trio of brilliant, acerbic teenagers from Denver, Colorado, who were going to change the world. Anna, Adam, and Lydia were taught by their father, a civil rights lawyer, and mother, an investigative journalist, to recognize injustice and have their hearts open to the universe, the good, the bad, the heartbreaking (and, inadvertently, the anxiety-inducing and the obsessive-compulsive disorder-fueling). Adam chose to meet life's tough breaks and cruel realities with stand-up comedy; his older sister, Anna, chose law; while their youngest sister, Lydia, struggled to find her place in the world. Beautiful and whip-smart, Lydia was witty, extremely sensitive, fiercely stubborn, and always somewhat haunted. She and Adam bonded over comedy from a young age, running skits in their basement and obsessing over episodes of *The Simpsons*. When Adam sunk into a deep

depression in college, it was Lydia who was able to reach him and pull him out. But years later as Adam's career takes off, Lydia's own depression overtakes her, and, though he tries, Adam can't return the favor. When she takes her own life, the family is devastated, and Adam throws himself into his stand-up, drinking, and rage. He struggles with disturbing memories of Lydia's death and turns to EMDR therapy to treat his post-traumatic stress disorder when he realizes there's a difference between losing and losing it. Adam Cayton-Holland is a tremendously talented writer and comedian, uniquely poised to take readers to the edges of comedy and tragedy, brilliance and madness. *Tragedy Plus Time* is a revelatory, darkly funny, and poignant tribute to a lost sibling that will have you reaching for the phone to call your brother or sister by the last page."

**921 CUNNINGHAM Cunningham, William J. *Fashion climbing* / Penguin Press, 2018**

The iconic "New York Times" photographer presents a sophisticated, visual account of his early education in New York City's high-fashion circles. For Bill Cunningham, New York City was the land of freedom, glamour, and, above all, style. Growing up in a lace-curtain Irish suburb of Boston, secretly trying on his sister's dresses and spending his evenings after school in the city's chicest boutiques, Bill dreamed of a life dedicated to fashion. But his desires were a source of shame for his family, and after dropping out of Harvard, he had to fight them tooth-and-nail to pursue his love. When he arrived in New York, he reveled in people-watching. He spent his nights at opera openings and gate-crashing extravagant balls, where he would take note of the styles, new and old, watching how the gowns moved, how the jewels hung, how the hair laid on each head. This was his education, and the birth of the democratic and exuberant taste that he came to be famous for as a photographer for *The New York Times*. After two style mavens took Bill under their wing, his creativity thrived and he made a name for himself as a designer. Taking on the alias William J.--because designing under his family's name would have been a disgrace to his parents--Bill became one of the era's most outlandish and celebrated hat designers, catering to movie stars, heiresses, and artists alike.

**921 FIELD Field, Sally. *In pieces: a memoir* / Grand Central Publishing, 2018**

One of the most celebrated, beloved, and enduring actors of our time, Sally Field has an infectious charm that has captivated the nation for more than five decades, beginning with her first TV role at the age of seventeen. From Gidget's sweet-faced "girl next door" to the dazzling complexity of Sybil to the Academy Award-worthy ferocity and depth of Norma Rae and Mary Todd Lincoln, Field has stunned audiences time and time again with her artistic range and emotional acuity. Yet there is one character who always remained hidden: the shy and anxious little girl within. With raw honesty and the fresh, pitch-perfect prose of a natural-born writer, and with all the humility and authenticity her fans have come to expect, Field brings readers behind-the-scenes for not only the highs and lows of her star-studded early career in Hollywood, but deep into the truth of her lifelong relationships--including her complicated love for her own mother.

**921 KANDER Kander, Jason. *Outside the wire: ten lessons I've learned in everyday courage* / Twelve, Hachette Book Group, 2018**

"Barack Obama has called Jason Kander the future of the Democratic Party. A former Army Captain who served in Afghanistan, Kander was the first millennial ever elected to statewide office. Today, he is the founder and president of Let America Vote, and a bold new voice in American politics. In *OUTSIDE THE WIRE*, Jason Kander writes candidly about his life, from joining the military following 9/11, to launching his first political campaign, to becoming the next step in the evolution of the Democratic Party following the 2016 presidential election.

Kander's signature outspoken voice is on full display as he guides readers through his own journey from soldier to politician, detailing -- often with a dose of humor -- the lessons he's learned along the way. *OUTSIDE THE WIRE* is an inspiring and entertaining argument for a life of service, as well as a hopeful vision of America's future as seen through the eyes of one of its most dedicated citizens." -- Publisher's annotation.

**921 SMARSH Smarsh, Sarah. Heartland: a memoir of working hard and being broke in the richest country on Earth / Scribner, 2018.**

During Smarsh's turbulent childhood in Kansas in the '80s and '90s, the forces of cyclical poverty and the country's changing economic policies solidified her family's place among the working poor. Her personal history affirms the corrosive impact intergenerational poverty can have on individuals, families, and communities. Combining memoir with powerful analysis and cultural commentary, this is an uncompromising look at class, identity, and the particular perils of having less, in a country known for its excess.

**921 WOLFSON Wolfson, Laura Esther. For single mothers working as train conductors / University Of Iowa Press, 2018**

"Laura Esther Wolfson's literary debut draws on years of immersion in the Russian and French languages; struggles to gain a basic understanding of Judaism, its history, and her place in it; and her search for a form to hold the stories that emerge from what she has lived, observed, overheard, and misremembered. In "Proust at Rush Hour," when her lungs begin to collapse and fail, forcing her to give up an exciting and precarious existence as a globetrotting simultaneous interpreter, she seeks consolation by reading Proust in the original while commuting by subway to a desk job that requires no more than a minimal knowledge of French. In "For Single Mothers Working as Train Conductors" she gives away her diaphragm and tubes of spermicidal jelly to a woman in the Soviet Union who, with two unwanted pregnancies behind her, needs them more than she does. "The Husband Method" has her translating a book on Russian obscenities and gulag slang during the dissolution of her marriage to the Russian-speaker who taught her much of what she knows about that language. In prose spangled with pathos and dusted with humor, Wolfson transports us to Paris, the Republic of Georgia, upstate New York, the Upper West Side, and the corridors of the United Nations, telling stories that skewer, transform, and inspire"-- | "Winner of the Iowa Prize for Literary Nonfiction"--

**940.53 RUS Russell, Jan Jarboe. The train to Crystal City: FDR's secret prisoner exchange program and America's only family internment camp during World War II / Scribner, 2016**

From 1942 to 1945, secret government trains delivered United States civilians regularly to Crystal City, a small desert town at the southern tip of Texas. The trains carried Japanese, German, and Italian immigrants and their American-born children. The vast majority were loyal to the United States deeply, were never charged with any crime, and did not understand why they had been forced to leave their homes. Crystal City, the only family internment camp during World War II, was the center of a secret government prisoner exchange program. During the war, hundreds of prisoners in Crystal City, including their children, were exchanged for other, ostensibly more important Americans ---- diplomats, businessmen, soldiers, physicians, and missionaries ---- behind enemy lines in Japan and Germany. Haunted by the story for decades, Jan Jarboe Russell interviewed more than fifty living internees from the camp and gained access to private journals, diaries, FBI files, camp administration records, and other documents. Focusing her story on two American-born teenage girls, Russell assembles a vivid reconstruction of their years spent in the camp, their families' subsequent respective journeys to war-devastated Germany and Japan, and their years-long attempt to survive and return to

The United States. Their stories of day-to-day life at the camp, from the ten-foot-high security fence to the armed guards, daily roll call, and censored mail, have never been told. *The Train To Crystal City* reveals the wartime hysteria against the Japanese and Germans in America, FDR's secret tactics to rescue prisoners of war in Germany and Japan, how the definition of American citizenship changed under the pressure of war, and, above all, a tale of resilience and patriotism against overwhelming odds. -- Cover.

**956.7044 CHI Chivers, C. J. *The fighters: Americans in combat in Afghanistan and Iraq* / Simon & Schuster, 2018**

"Almost 2.5 million Americans have served in Afghanistan or Iraq since September 11, 2001. C.J. Chivers has reported from both fronts from the beginning, walking side by side with combatants for more than a dozen years. He describes the experience of war today as it is endured by those most at risk--the camaraderie and profound sense of purpose, alongside courage, frustration, and moral confusion mixed with technical precision. In these remote places where the reason for their presence is sometimes not clear, these young men kill or are killed, facing palpable and often constant threat of ambush or hidden bombs. They repeatedly return, rushing toward danger, often to rescue the wounded in wars that escalate around them as the Pentagon changes doctrines and plans. Weaving a history of the war through troops' experiences, the characters in *The fighters* climb into an F-14 cockpit for the opening strikes after the attacks of 9/11, hunt for Osama bin Laden along the Pakistani border, chase insurgent rocket teams with helicopters alongside American bases, face snipers in a hostile city in Anbar Province in Iraq, and engage in deadly counterguerilla warfare in the soaring mountains of the Korengal Valley in Afghanistan. Some suffer terribly. All are changed. They return home, uncertain of their place in the world and what their wars have achieved. Chivers accompanied combatants over many years and multiple tours, including many of the characters in this book, developing deep understanding of the experience of combat in our times. *The fighters*, his tour de force, tells a history of America's longest wars as well as the lives of the volunteers who have waged them"--

**956.9405 EHR Ehrenreich, Ben. *The way to the spring: life and death in Palestine* / Penguin Books, 2017**

A brave and necessary immersion into the everyday struggles of Palestinian life. In cities and small villages alike, men and women, young and old, a group of unforgettable characters share their lives with Ehrenreich and make their own case for resistance and resilience in the face of life under occupation. Ruled by the Israeli military, set upon and harassed constantly by Israeli settlers who admit unapologetically to wanting to drive them from the land, forced to negotiate an ever more elaborate and more suffocating series of fences, checkpoints and barriers that have sundered home from field, home from home, this is a population whose living conditions are unique, and indeed hard to imagine.

**972.9 TUN Von Tunzelmann, Alex. *Red heat: conspiracy, murder, and the Cold War in the Caribbean* / Picador, 2012**

The Caribbean crises of the Cold War are presented in this story of clashing ideologies, the rise of the politics of fear, the machinations of superpowers, and the brazen daring of the mavericks who took them on. During the period of Eisenhower, Kennedy, and Johnson, the United States and the Soviet Union acted out the world's tensions on three important island nations, Cuba, Haiti and the Dominican Republic. Meanwhile, the leaders of these nations--the charismatic Fidel Castro and his mysterious brother Raoul; the ideologue Che Guevara; the capricious psychopath Rafael Trujillo; and Francois "Papa Doc" Duvalier, a buttoned-down

doctor with interests in Vodou, embezzlement and torture--had ambitions of their own. The superpowers thought they could use Cuba, Haiti, and the Dominican Republic as puppets, but what neither bargained on was that their puppets would come to life. Historian Alex von Tunzelmann's narrative follows these five rivals and accomplices from the beginning of the Cold War to its end.--From publisher description.

**973 LEP Lepore, Jill. These truths: a history of the United States / W.W. Norton & Company, 2018**

"The American experiment rests on three ideas--"these truths," Jefferson called them--political equality, natural rights, and the sovereignty of the people. And it rests, too, "on a dedication to inquiry, fearless and unflinching," writes Jill Lepore in a groundbreaking investigation into the American past that places truth itself at the center of the nation's history. In riveting prose, *These truths* tells the story of America, beginning in 1492, to ask whether the course of events has proven the nation's founding truths, or belied them. "A nation born in contradiction, liberty in a land of slavery, sovereignty in a land of conquest, will fight, forever, over the meaning of its history," Lepore writes, finding meaning in those very contradictions as she weaves American history into a majestic tapestry of faith and hope, of peril and prosperity, of technological progress and moral anguish. A spellbinding chronicle filled with arresting sketches of Americans from John Winthrop and Frederick Douglass to Pauli Murray and Phyllis Schlafly, *These truths* offers an authoritative new history of a great, and greatly troubled, nation"--

**973.92 KIR Kirkpatrick, Rob. 1969: the year everything changed / Skyhorse Pub., 2011**

The very mention of this generation-defining year summons indelible memories: Woodstock. The moon landing. Charles Manson. Easy Rider. The Miracle Mets. Joe Namath. Richard Nixon. Chappaquiddick. The Zodiac Killer. Altamont. The Days of Rage. Americans saw new boundaries pushed on screen, stage, and the printed page. The first punk and heavy metal records hit stores. Swinger culture became chic. The Santa Barbara oil slick and Cuyahoga river fire highlighted growing concerns about ecological devastation. Hamburger Hill, the bombing of Cambodia, and the breaking stories of the My Lai massacre inspired bitter debates on the Vietnam War. The nationwide Moratorium provided a unifying force in the antiwar movement, and John Lennon urged us to "Give Peace a Chance." Library Journal --Book Jacket.

**973.929 STA Starr, Kenneth. Contempt: a memoir of the Clinton investigation / Sentinel, 2018**

"Twenty years after the Starr Report and the Clinton impeachment, former special prosecutor Ken Starr finally shares his definitive account of one of the most divisive periods in American history. You could fill a library with books about the scandals of the Clinton administration, which eventually led to President Clinton's impeachment by the House of Representatives. Bill and Hillary Clinton have told their version of events, as have various journalists and participants. Whenever liberals recall those years, they usually depict independent counsel Ken Starr as an out-of-control, politically driven prosecutor. But as a New York Times columnist asked in 2017, "What if Ken Starr was right?" What if the popular media in the 1990s completely misunderstood Starr's motives, his tactics, and his ultimate goal: to ensure that no one, especially not the president of the United States, is above the law? Starr--the man at the eye of the hurricane--has kept his unique perspective to himself for two full decades. In this long-awaited memoir, he finally sheds light on everything he couldn't tell us during the Clinton years, even in his carefully detailed "Starr Report" of September 1998. *Contempt* puts you, the reader, into the shoes of Starr and his team as they tackle the many scandals of that era, from

Whitewater to Vince Foster's death to Travelgate to Monica Lewinsky. Starr explains in vivid detail how all those scandals shared a common thread: the Clintons' contempt for our system of justice. This book proves that Bill and Hillary Clinton weren't victims of a so-called "vast right-wing conspiracy." They played fast and loose with the law and abused their powers and privileges"--

**973.932 JAR Jarrett, Gregg. The Russia hoax: the illicit scheme to clear Hillary Clinton and frame Donald Trump / Broadside Books, 2018**

Fox News legal analyst Gregg Jarrett reveals the real story behind Hillary Clinton's deep state collaborators in government and exposes their nefarious actions during and after the 2016 election. The Russia Hoax reveals how persons within the FBI and Barack Obama's Justice Department worked improperly to help elect Hillary Clinton and defeat Donald Trump in the 2016 presidential election. When this suspected effort failed, those same people appear to have pursued a contrived investigation of President Trump in an attempt to undo the election results and remove him as president. The evidence suggests that partisans within the FBI and the Department of Justice, driven by personal animus and a misplaced sense of political righteousness, surreptitiously acted to subvert electoral democracy in our country. The book will examine:

How did Hillary Clinton manage to escape prosecution despite compelling evidence she violated the law?

Did Peter Strzok, James Comey, Andrew McCabe, Loretta Lynch, and others obstruct justice by protecting Clinton?

Why was there never a legitimate criminal investigation of Clinton in the Uranium One case?

Are the text messages exchanged between Strzok and FBI lawyer Lisa Page evidence of a concerted effort to undermine the electoral process?

Was there ever any real evidence of "collusion" between Trump and the Russians?

Did Trump obstruct justice in the firing of Comey or was he legally exercising his constitutional authority?

Did the FBI and DOJ improperly use a discredited "dossier" about Trump to obtain a FISA warrant to spy on Trump associates?

Should Mueller have disqualified himself under the special counsel law based on glaring conflicts of interest?

Was fired National Security Adviser Michael Flynn unfairly charged with making a false statement?

With insightful analysis and a fact-filled narrative, The Russia Hoax delves deeply into Democrat wrongdoing."

**973.933 GAR Garrett, Major. Mr. Trump's wild ride: the thrills, chills, screams, and occasional blackouts of an extraordinary presidency / All Points Books, 2018**

A chronicle of the Trump administration from the inside perspective of a White House press correspondent."A seasoned White House correspondent surveys an unusual presidency and answers the most important question: Does Trump matter? Major Garrett has been reporting on the White House for nearly two decades, covering four different presidencies for three news outlets. But if he thought that his distinguished journalistic career had prepared him for the unique challenges of covering Donald Trump, he was in for a surprise. Like many others in Washington, Garrett found himself having to unlearn many of his own settled notions about the nature and function of the presidency. He also had to separate the carnival-like noise of the Trump presidency from its underlying substance. For even in its first half, Trump's tenure has been highly consequential. In Mr. Trump's Wild Ride, Major Garrett provides what journalists are often said to do, but usually don't: write the true first draft of history. His goal was to sift through the mountains of distracting tweets and shrieking headlines in order to focus on the most significant moments of Trump's young presidency, the ones that Garrett believes will have a lasting impact. The result is an authoritative, mature, and consistently entertaining account of one of the strangest eras in American political history. A consummate professional with unimpeachable integrity, remarkable storytelling skills, and a deep knowledge of his subject earned through decades of experience, Garrett brings to life the twists and turns of covering this White House and its unconventional occupant with wit, sagacity, and style. Mr. Trump's Wild Ride should place him securely in the first rank of Washington journalists. "--Dust jacket.

**973.933 SPI Spicer, Sean. The briefing: politics, the press, and the president / Regnery Publishing, a division of Salem Media Group, 2018**

"No job is more of a pressure cooker than being a White House press secretary...especially in this White House. For more than two decades, Sean Spicer had been a respected political insider, working as a campaign and communications strategist. But in December 2016, he got the call of a lifetime. President-elect Donald J. Trump had chosen him to be the White House press secretary. And life hasn't been the same since. When he accepted the job, Spicer was far from a household name. But then he walked into the bright lights of the briefing room, and the cameras started rolling. His every word was scrutinized. Every movement was parodied. Every detail became a meme. And that's just the public side. Behind the scenes, things were almost as difficult in an administration plagued by leaks that frustrated and angered both Spicer and

the president. Not to mention the extraordinary pressures on Spicer's family and his faith. Now, in his provocative and enlightening political memoir, *The Briefing*, Spicer reveals the truth behind some of the biggest news stories of our time, and he offers a glimpse into what it's like to stand at the press secretary's podium--and how he got there. *The Briefing* is the first insider account written by someone who worked on the Trump campaign, with the Trump transition team, and in the Trump White House--and has seen Donald Trump rallying voters, building an administration, and making crucial policy decisions. Spicer's riveting and personal account makes *The Briefing* the must-read political book of the year."--Dust jacket.

**973.933 WIL Wilson, Rick. Everything Trump touches dies: a Republican strategist gets real about the worst president ever / Free Press, 2018**

A respected, long-time Republican strategist, ad-maker and contributor for *The Daily Beast*, skewers the disease that is destroying the conservative movement and burning down the GOP: Trumpism. In *Everything Trump Touches Dies*, political campaign strategist and commentator Rick Wilson brings his darkly funny humor and biting analysis to the absurdity of American politics in the age of Trump. Wilson mercilessly exposes the damage Trump has done to the country, to the Republican Party he served for decades, and to the conservative movement that has abandoned its principles for the worst President in American history. No left-winger, Wilson is a lifelong conservative who delivers his withering critique of Trump from the right. A leader of the Never Trump movement, he warns his own party of the political catastrophe that leaves everyone involved with Trump with reputations destroyed and lives in tatters. Wilson unblinkingly dismantles Trump's deceptions and the illusions to which his supporters cling, shedding light on the guilty parties who empower and enable Trump in Washington and the news media. He calls out the race-war dead-enders who hitched a ride with Trump, the alt-right basement dwellers who worship him, and the social conservatives who looked the other way. *Everything Trump Touches Dies* deftly chronicles the tragicomic Trump story from the early campaign days through the shock of election night, to the inconceivable trainwreck of Trump's first year. Rick Wilson provides not only an insightful analysis of the Trump administration, but also an optimistic path forward for the GOP, the conservative movement, and the country. Combining insider political analysis, blunt truths, and black humor, *Everything Trump Touches Dies* is perfect for those on either side of the aisle who need a dose of unvarnished reality, a good laugh, a strong cocktail, and a return to sanity in American politics.
